He gain reverted to the amendment already pted, which, he declared, was a gratuitous insult to his State. Senstors Turly and James K. Jones Speak Against the Measure.

WASHINGTON, Jan. 30 .- The shipping bill was kept at the front in the Senate throughout to-day. No appreciable progress was made, most of the time being occupied by Mr. Turley, of Tennessee, and Mr. Jones, of Arkansas, in speeches opposing the bill and severely arraigning its alleged favoritism. Mr. Jones declared it should be entitled "A bill to permit a select coterie of ship owners to loot the United States treasury." After the speeches the formal reading of the bill was completed, but consideration of amendments was not

Early in the day an unsuccessful effort was made to secure agreement to the conference report on the army reorganization bill. Mr. Clapp, the new senator from Minnesota, presented the credentials of his colleague, Mr. Nelson, and Mr. Burrows, of Michigan, presented the credentials of Senator McMillan, each for the six-year term from March 4 next.

When the shipping bill was taken up Mr. Aldrich gave notice of two amendments, one providing that applicants for gubsidy shall contract to build a new vessel within the United States within three years and a second providing that the utmost limit of subsidy shall be fifteen years instead of twenty years, as provided

Mr. Turley in his speech declared that already the shipping interests had unusual privileges under the tariff, the postalunty laws and in many other ways. He compared the cost of ship building in various countries. This broug..t out a statement from Mr. Vest that ships could be tuilt for less in the United States than in any other country. As proof of this he said Japan had advertised for the lowest and best bid on a cruiser and the American dders had taken the contract, under-bidding the British ship builders by 20 per cent. Later, when Russia called for like bids, the American builders again underbid the foreigners. Only two weeks ago, Mr. Vest said, the Cramps had secured a contract for building a cruiser for Turkey as

egainst all other competitors. Mr. Turley spoke for two hours and was followed by Mr. Jones in opposition to the neasure. Mr. Jones said the bill proposed to take millions out of the public treasury and give it as a free gift to certain favored "subsidy beggars." One of the worst features of the measure, he said, was that the vast sums to be paid as subsides to a few wealthy concerns were wrung from the people and the poor. Mr. Jones said the bill should be entitled "A bill to mable a select coterie of ship owners to oot the United States treasury." He argued that commercial development and extension must come from our natural advantiges and enterprise and not from the legislative stimulus of subsides. Mr. Jones spoke for two hours and then

of the Royal Scottish Corporation. LONDON, Jan. 30 .- Lord Roseberry pre-

sided at a special meeting to-day of the Royal Scottish Corporation, called in London, to pass resolutions expressing sorrow at the death of Queen Victoria and of congratulations on the accession of King Edward VII. There was a crowded attendance. Nearly all the Scottish lords were present. Lord Roseberry remarking that he would pass lightly over the congratulatory part of the programme, said his Majesty's speech at the privy council meeting sufficiently indicated the laws by which he intended his reign should be governed, thus promising to make his rule no less illustrious than that of his parent. Lord Roseberry then dwelt in eloquent terms on the life and death of Queen Victoria, saying that in the whole history of mankind no death had touched such a large number of persons in the entire world. There was scarcely an intelligent individual in the civilized world but was profoundly moved. He wondered if her subjects yet realized how much they had lost and what enormous weight the Queen had had in the councils of the world. It was not brilliancy or genius which could supply the advantage which she gave Great Britain, but her fund of knowledge, which was unequaled by any constitutional historian. It was no disparagement of other kings to say she was the chief of European sovereigns, and her influence in the councils of nations was always used for peace, freedom and good government. Lord Strathcona and Mount Royal seconded the resolutions.

The remains of Verdi were borne from his residence and placed in a modest funeral car, which, followed by a few intimate friends, proceeded to the church of St. Francis, the facade of which bore the inscription: "Peace to the soul of Giuseppi Verdi." The religious ceremony lasted only five minutes. The remains of the composer were interred without ceremony and there were no speeches made.

The examination not even the most trusted employes of the bank knew that it was in progress, although two weeks were occupied in making it. Douglass H. Thomas, president of the bank, to-day gave the following explana-

There has been no suspicion upon our part, not has the examination been made because of anything tending to raise a doubt in our minds concerning anything or any body connected with the bank. It is simply the inception of a system which we purpose to adopt in the future of making periodical examinations of a similar nature independent of those made by the board of directors and the national bank examiner, Under the system which we have adopted long centinued manipulation of books and accounts will be impossible and the consequent danger of breaches of faith upon the part of employes in all branches will be reduced to a minimum, if not prevented
